

Dr. Inga Zasada Appointed Research Leader

Inga Zasada and Jayden Christman

Dr. Inga Zasada was appointed Research Leader of the USDA-ARS Horticultural Crops Research Unit (HCRU) in Corvallis, Oregon January 19, 2020. Inga has been a Research Plant Pathologist with USDA-ARS since 2003. She started her career in the Nematology Laboratory in Beltsville, Maryland before moving to HCRU in 2008.

Inga's research focuses on the chemical and non-chemical management of plant-parasitic nematodes. Her research in the PNW has primarily focused on nematodes of importance to the production of red raspberries and wine grapes.

The HCRU is committed to continuing to conduct research in small fruit and nursery crops in a variety of disciplines (horticulture, plant pathology, entomology, chemistry, physiology) that directly address industry needs. Details on how to contact Inga are provided.
